

The Florida Project – Review

Fantasy and reality mix in poignant tale of childhood

Warm, winning, and gloriously alive, Sean Baker's *The Florida Project* is a deeply moving and unforgettable look at childhood. Set on a stretch of highway outside the imagined utopia of Disney World, *The Florida Project* follows six-year-old Moonee (Brooklynn Prince) and rebellious mother Halley (Bria Vinaie) over the course of a single summer. The two

week to week at "The Magic Castle," a budget hotel managed by Bobby (Willem Dafoe), whose stern exterior hides a deep reservoir of kindness and compassion. Despite her harsh surroundings and ebullient Moonee has no trouble making each day a celebration of life, her endless afternoons overflowing with mischief and grand adventure as she and her ragtag playmate Jancey, a new arrival to the area who quickly becomes Moonee's best friend - fearlessly explore the utterly unique world into which they've been thrown. Unbeknownst to Moonee, however, her delicate fantasy is supported by the sacrifice of Halley, who is forced to explore increasingly dangerous possibilities in order to provide for her daughter.

You feel as if you've slipped inside of Moonee's enchanted world, while at the same time seeing the harsh reality of Halley's. That contrast is devastating, right up to a final sequence that's sure to break your heart in two.

The improvisation, accompanied by the boisterous and happy attitudes of the children, endows the film with a touching tone that loads of meaning the gravity of the reflection sustain it. It's one of the most effective, honest portraits of childhood you'll ever see, a touching snapshot of modern American life.
